

# Troubleshoot Irrigation Leaks

**How to  
find hidden leaks,  
troubleshoot geysers,  
fix the breaks and  
when to call in the pros**

## **Free Workshop**

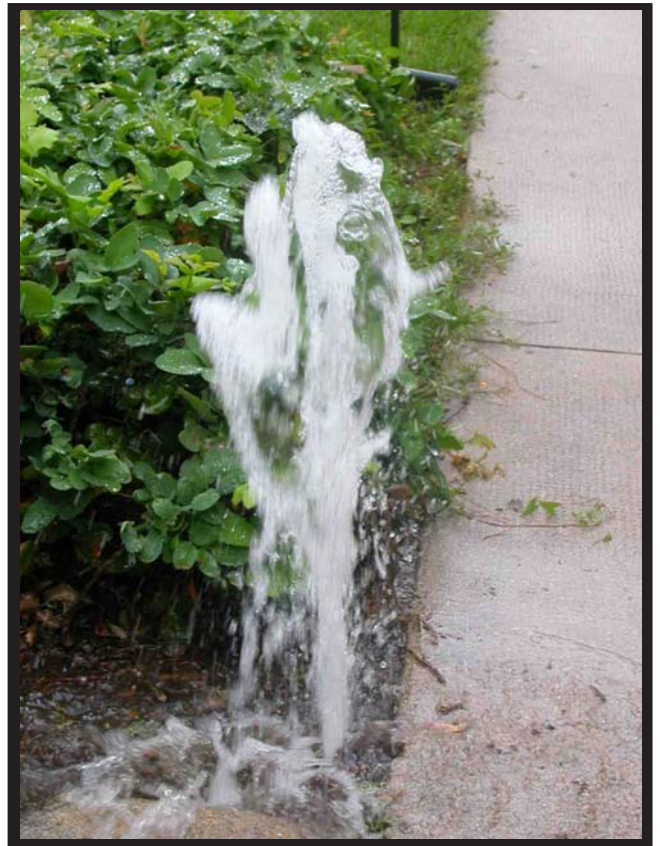

**Presented by:**

**Chris Elliott, Cabrillo College instructor  
and owner of Aqua Green Landscaping**

**Sponsored by:**

**Soquel Creek Water District  
and the City of Capitola**

**Irrigation parts from Hunter Irrigation**

**Not all irrigation leaks are easy to see.**

**When: Saturday August 15, 9:00 am - 12:00 pm**

**Where: Jade St. Community Center - Room C  
4400 Jade St. in Capitola**

**What:** Irrigation leaks in the garden or landscaping can cause big jumps in water bills. They are sometimes hard to find and can be difficult to fix. Come to this free how-to workshop with hands-on demonstrations from a professional who deals with irrigation leaks every day. Chris Elliott is an experienced instructor and irrigation specialist who can give you the “know-how” tools to finding and fixing problems in your irrigation system and when to call a professional.

**Who:** This workshop is open to the public.
